Academic Theme for Grades 1-5

WHITE NIGHTS OF RUSSIA

This summer, the AIM Enrichment program takes students on an exploration of Russia to experience the mysterious and magic twilight of the White Nights. Visit this unforgettable country with an extraordinary history and rich cultural traditions that have inspired some of the modern world's greatest literature, music and visual arts.

AIM will take you to St Petersburg, the "window to the west" and the largest northern most city in the world. Learn about the White Lights festival along the Neva River with summer days that are gloriously long and nights are bright. In the land of Tsars and Tsarinas, majestic palaces and architecture, Russia will capture the imagination!

Join us this coming summer in our new facility at River Park as we explore the White Nights of Russia.

Do svidaniya!

Please visit www.aimpa.org or join us at an Open House for more information. Contact Karen Keesey at kkeesey@aimpa.org 215-483-2461 with questions.

Support Therapies for All Grades

Sessions available before, during, & after morning programs.
Space is limited.

Interactive Metronome
\$1,500 for 15 sessions

Interactive Metronome is a computer-based rehabilitation program that targets auditory and visual processing for improved motor planning and sequencing. The student matches his/her movements to a computer generated beat and receives feedback regarding performance. Students who participate in the program have shown improvements in motor coordination, language processing and academic performance.

Cogmed Working Memory Training
25 sessions

Cogmed Working Memory Training is a proven software-based program designed for sustainably improved attention and working memory capacity. Working memory is the ability to keep information in mind for a short time, focus on a task and remember what to do next. Clinically-proven results demonstrate that after training, users increase their ability to concentrate, control impulsive behavior, and better utilize complex reasoning skills.

One-on-One Speech and Language and Occupational Therapy sessions and evaluations are available. Comprehensive psychoeducational evaluations are available through the Psychology Department.
